devotional service as ultimate teaching of vedic

Need For Self control:

Spiritual life requires self control, without stedy
practice its not possible
it means to reagin spiritual conciounes means,
giving up bodily conciousness
As soon as sense objects comes infront they make
us forget our real identity
as long as there is material gratification it rivits us to
the body

Attitude: It determines your altitude
advancement in kc dependes upon the attitude of the
follower,
Sense and mind control seems a very dificult task. but if
someone is determined that this practice will lead to
control,
drop "I" am the doer mentality
